

HAD402 Auto Drainer

Application:

It applies to where there is seep need to be removed automatically. For the applications there is large consumption of air or frequent water drain, such as the bottom of Piping System, Frozen Air Dryer, Air Storage Tank, and Air Filter. It can be installed in the place hard to reach, preventing compressed air from being re-polluted by condense water resulting from neglect of manual drain.

Specification:

Ordering Code	HAD402-02	HAD402-03	HAD402-04
Fluid	Compressed Air		
Proof Pressure	1.5MPa		
Working Pressure	0.15-1.00MPa		
Temperature	5-60°C		
Port Size	G1/4	G3/8	G1/2
Drain Port Size	G1/8		
Drain Status	Normal Open Type		

Dimension:
